Field excursions are made to study objects in their natural environment, and experimental investigations are conducted by the students in the classroom. GEOGRAPHY AND GEOLOGY GEOGRAPHY. PHYSICAL GEOGRAPHY. The first step in physical geography is to master the earth as a sphere--to get the earth-sphere into consciousness as an object of study. The second step is the mastery of the lithosphere. This must be seen as a whole and in its relations to the other spheres, and then it must be reviewed in its relations to the earth as the home of man. The third...
