

Femtochemistry and Femtobiology: Ultrafast Events in Molecular Science (Hardback)

By Monique Martin

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 2004.
 Hardback. Book Condition: New. New.. 246 x 175 mm. Language: English . Brand New Book. This book reflects the heights of knowledge of ultrafast chemical processes attained in these early years of the 21st century: the latest research in femtosecond and picosecond molecular processes in Chemistry and Biology, carried out around the world, is described here in more than 110 articles. The results were presented and discussed at the VIth International Conference on Femtochemistry, in Paris, France, from July 6 to July 10, 2003. The articles published here were reviewed by referees selected from specialists in the Femtochemistry community, guaranteeing a collective responsibility for the quality of the research reported in the next 564 pages. Femtochemistry is an ever-growing field, where new research areas are constantly opening up, and one which both stimulates and accompanies the development of ultrafast technologies. The increasing interest in femtobiology and chemistry at the frontier with biology is an obvious indicator of the present impact of life sciences in our society. New materials and reactions at surfaces are also some of the relatively new topics that promise rapid developments. New methodologies and technologies for probing and following in real...

Reviews

This composed pdf is excellent. It normally is not going to cost too much. I discovered this ebook from my dad and i encouraged this pdf to discover.

-- **Mrs. Edna Pfannerstill MD**

The most effective ebook i ever study. I have got go through and so i am certain that i am going to gonna study once more once more in the foreseeable future. You will like how the author create this book.
