A friend, who was a believer, asked me to take a look and find the scientific basis of Crystal Healing. My career has been in Aerospace Engineering so he thought I could surely find the scientific basis for something in which he so strongly believed. I felt that I had to check it out for my friend. I realized that any scientific basis for Crystal Healing would have to require some sort of exchange of energy between the crystal and our human body. I evaluated several types of crystals and found that the amethyst crystal had the best measurable energy field with the most available data. I knew from Einstein's famous equation  $E=MC^2$  that our bodies are basically two kinds of matrices: one of matter (M) which is our flesh and bone, and one of energy (E) which has a measurable electromagnetic field. (C is the speed of light.) I knew that advocates of Crystal Healing called this field our aura. The basic objective was then to find a mechanism that could enable our bodies to receive an energy transmission from a radiating crystal. I read the Vedas of the ancient Hindu Religion and learned their beliefs regarding chakras and especially the chakra they call the Third Eye.
